 50ch@2800rpm  
 Fuel tank: 1350 L  
 Architect(s): Jean-Pierre Brouns

Small motor yacht, the JMF 31' is ideal to enjoy its vacations and to sail for the day as well as on long trips with a limited crew. It is equipped with two low consumption engines and a large diesel tank which allows it to have a relatively large autonomy. The yacht includes large spaces at the front and back to enjoy the sun or to fish. The cockpit is composed of a saloon with a fully equipped kitchen and a navigation area with a steering wheel. On the front of the boat there is a large owner's cabin with plenty of storage space, a bathroom and an independent toilet.
