Engine(s) : Volvo D2 SD 60 60ch@3000rpm
Fuel tank : 420 L
Water tank : 400 L
Architect(s) : Jean-pierre Brouns

The JPB 40 is a large sailing yacht of just under 12 m capable of taking a whole family on expeditions to the poles or to the warm seas of the Caribbean. With a high headroom, the interior is spacious and allows a large living area. The saloon is on the port side and the kitchen and the chart table are on the starboard side. At the rear, there is a bedroom with two single beds, a bathroom and a storage space for sails with a possible workshop or office. At the front, we have two double cabins and an office with plenty of storage space.

Available in 2 versions (Classic or Twin keels), the JPB 40 is a comfortable expedition yacht with a Strongall hull able to resist the most violent shocks.
