**Engine(s) :** Hors bord : 140 ch Suzuki ATX, direction hydraulique

**Fuel tank :** 140 L

**Water tank :** 70 L

**Architect(s) :** Christophe Lesueur

Petit Boat is a motorboat of only 6.90 meters long, built in pre-stressed aluminum using the Strongall process. With a straight bow, raised front deck, and a steering console set back to allow a table in front, Petit Boat is a unique boat. Equally capable of going on a day trip for fishing or going to Corsica from the French Riviera, Petit Boat and its 30 centimeters draft is a very versatile little yacht that will take you to your dreams.
